## Important Notice

TO

## Ship Owners.

AMERICAN LLOYDS OFFICE,
Burlin Slip, New York,
Jan 31, 1871.

The Register for 1871 is now ready. The January Supplements will contain the introduction to the history of the "Register." In order to supply the demand for the Exposition, an extra edition will be printed and furnished gratuitously to all parties in possession of a book called the "Record," or a book called the "American Lloyds Universal."
HARTSHORN & KING.

The American Lloyds Register, being the acknowledged standard of American surveys of shipping, approved by underwriters generally, and adopted by the Peruvian Government as a standard for the selection of ships to carry Guano, also by the California Board of Underwriters and the West India Lloyds at Havana, &c., &c., it is important to owners to have their vessels surveyed and classed in its "Register." Having competent surveyors throughout the State of Maine, I am prepared to order or make surveys personally, of those apply, and to grant certificates under the "Standard Rules" issued by the Board. Also parties can be supplied with copies of the American Lloyds Register, for 1871, by sending their orders to me at the National Insurance Company, Bangor.

## 7-30 GOLD LOAN,

OF THE

Northern Pacific Railroad.

Rapid Progress of the Work.

The building of the Northern Pacific Railroad, begun in July last, is being pushed forward with great energy from both extremities of the line. Several thousand men are employed in Minnesota and on the Pacific coast. The grade is nearly completed 266 miles westward from Lake Superior; track are running over 130 miles of finished road, and track laying is rapidly progressing toward the eastern border of Dakota. Including its purchase of the St. Paul and Pacific Road, the Northern Pacific Company now has 413 miles of completed road, and by September next this will be increased to at least 500.

A GOOD INVESTMENT. Jay Cooke & Co. are now selling, and unhesitatingly recommend, as a Profitable and perfectly Safe investment, the First Mortgage Land Grant Gold Bonds of the Northern Pacific Railroad Company. They have 30 years to run, bear Seven and Three-Tenths per cent. gold interest (more than 8 per cent. currency) and are secured by first and only mortgage on the ENTIRE ROAD AND ITS EQUIPMENTS, and also, as fast as the road is completed, on 23,000 ACRES OF LAND to every mile of track, or 500 Acres for each $1000 Bond. They are exempt from U. S. Tax; Principal and Interest are payable in Gold; Denominations: Coupon, $100 to $1000. Registered, $100 to $10,000.

LANDS FOR BONDS. Northern Pacific 7-30's are at all times receivable at TEN PER CENT. ABOVE PAR, in exchange for the Company's Lands, at their lowest cash price. This renders them practically INTEREST BEARING LAND WARRANTS.

SINKING FUND. The proceeds of all sales of Lands are required to be devoted to the re-purchase and cancellation of the First Mortgage bonds of the Company. The Land Grant of the Road exceeds Fifty Million Acres. This immense Sinking Fund will undoubtedly cancel the principal of the Company's bonded debt before it falls due. With their ample security and high rate of interest, there is no investment, accessible to the people, which is more PROFITABLE OR SAFE.

EXCHANGING U. S. FIVE-TWENTIES. The success of the New Government 5 per cent. Loan will compel the early surrender of United States 6 per cents. Many holders of Five-Twenties are now exchanging them for Northern Pacific Seven-Thirties, thus realizing a handsome profit, and greatly increasing their yearly income.

OTHER SECURITIES. All marketable Stocks and Bonds will be received at their highest current price in exchange for Northern Pacific Seven-Thirties. EXPRESS CHARGES on Money or Bonds received, and on Seven-Thirties sent in return, will be paid by the Financial Agents. Full information, maps, pamphlets, etc., can be obtained on application at any agency, or from the undersigned.

## A Safe & Profitable INVESTMENT.

First Mortgage Bonds,

To a limited amount, upon a railroad which is well located for business, and which has been already largely constructed with the funds of its Stockholders, cannot be otherwise than safe. This security is increased if the Constructing Company is composed of men of high character, and of ample means for successfully carrying through any work that they undertake.

THE

NEW ORLEANS MOBILE & TEXAS

RAILROAD COMPANY

offer for sale a bond which combines these advantages to an unusual degree. The route lies between Mobile, Alabama, and Houston, Texas passing through New Orleans, the New York of the South, of the whole line of 476 miles, about two-thirds are already built, and the Stockholders have expended nearly TEN MILLION DOLLARS in the work. The bonds now offered are secured by a mortgage upon all that part of the line west of New Orleans, which has an enormous traffic assured to it from the start, this being the only rail connection by which the cotton, corn, cattle and other productions of Texas can reach New Orleans.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of second mortgage bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The first Mortgage

Eight Per cent. Bonds

Now offered, are limited in amount to $12,500 per mile, and are for $1,000 or £200 each, interest payable January and July, at the rate of 8 per cent, Currency or 7 per cent. Gold, at the option of the holder. Bonds registered if desired.

Among the leading Stockholders of the Company are Hon. J. D. Morgan, Ex-Governor and Ex-U. S. Senator, Hon. John A. Griswold, Ex-Lieutenant-Governor, Troy, N. Y.; Hon. Oakes Ames, M. C., Massachusetts; Messrs. Morton Bliss & Co., Le Von Hoffman & Co., J. & W. Seligman & Co., Harrison Durkee, and others, of New York; Benjamin E. Bates, President Bank of Commerce, Franklin Havens, President Merchants' Bank, Boston, and others, also well known.

The above statement of facts proves the SAFETY of these Bonds. Their PROFIT is equally manifest upon examination. They are sold for the present at 90, and accrued interest from July 1st. At this price they afford a certain income for forty-five years, of nearly nine per cent. upon their cost. One thousand dollars invested in these eight per cent. bonds will give the purchaser more than seventy-seven per cent. greater annual interest than the same amount invested in the new Government five Per Cents, while holders of Government Sixes will find a decided profit in selling them at present high prices, and re-investing in the New Orleans, Mobile and Texas Bonds.

Subscriptions will be received in Bangor by

ARE ENDORSED AND PRESCRIBED BY MORE leading Physicians than any other Tonic or Stimulant now in use. They are

A SURE PREVENTIVE

For Fever and Ague, Intermittents, Billiousness and all disorders arising from malarious causes. They are highly recommended as an ANTI-DYSPEPTIC, and in cases of INDIGESTION are INVALUABLE. As an APPETIZER and RECUPERANT, and in cases of GENERAL DEBILITY they have never, in a single instance, failed in producing the most happy results. They are particularly

BENEFICIAL TO FEMALES,

Strengthening the body, invigorating the mind, and giving tone and elasticity to the whole system. The HOME BITTERS are compounded with the greatest care, and no tonic stimulant has ever before been offered to the public so PLEASANT TO THE TASTE and at the same time combining so many remedial agents endorsed by the medical fraternity as the best known to the Pharmacopoeia. It costs but little to give them a fair trial, and

Every Family Should Have a Bottle.

No preparation in the world can produce so many unqualified endorsements by physicians of the very highest standing in their profession.
*Endorsed also by the Clergy and the leading denominational papers.*

UNITED STATES MARINE HOSPITAL,
ST. LOUIS, Mo., Oct. 8, 1870.
JAMES A. JACKSON & Co.—I have examined the formula for making the "Home Stomach Bitters," and used them in this hospital the last four months. I consider them the most valuable tonic and stimulant now in use.
S. H. MELCHER,
Resident Physician in charge U. S. Marine Hospital.

JAMES A. JACKSON & Co.—Gentlemen: As you have communicated to the medical profession the recipe of the "Home Bitters," it cannot, therefore, be considered as a patent medicine, no patent having been taken for it. We have examined the formula for making the "Home Bitters," and unhesitatingly say the combination is one of rare excellence, all the articles used in its composition are the best of the class to which they belong, being highly tonic, Stimulant, Stomachic, Carminative, and slightly Laxative. The mode of preparing them is strictly in accordance with the rules of pharmacy. Having used them, seen its effects in our private practice, we take pleasure in recommending them to all persons desirous of taking Bitters, as being the best Tonic and Stimulant now offered to the public.

VEGETABLE

## Sherry Wine Bitters.

THE BEST MEDICINE IN THE WORLD.

Composed of Dock Root, Sarsaparilla, Rock Rose, Wintergreen, Dandelion, Wild Cherry, Thoroughwort, Prickly Ash, Poplar Bark, Rhubarb, etc. For **Weakness, Loss of Appetite, Jaundice, Headache, Sour Stomach, Piles** of long standing, **Humors**, and *all Diseases which arise from an unhealthy state of the Stomach, Bowels, and Blood*, for which valuable Roots and Herbs, and the knowledge of their great service to suffering humanity, man cannot feel too thankful to Him who wisely provided us with all things.

## TO ALL PERSONS,

BOTH SICK AND WELL.

If a **Long Life of Health and Happiness** is desired, let these Bitters be taken, particularly in the *Spring and Warm Seasons* of the year, and especially by the *following classes of people*.—The **MECHANIC**, who, from his constant in-door labors, not having sufficient access to the bracing and refreshing air out of doors, becomes weakened at the stomach, nervous, pale and sickly, his food not relishing nor properly digesting. He should take these Bitters, and freely too, in order to get his system up, right and strong, and in prime condition to go through the warm weather in good shape, with his constant daily labors. The exhilarating and cleansing power of the Dock Root, Dandelion, Poplar, and Prickly Ash Bark, is what will bring him up, and make him, physically speaking, **once more a man!** The **MILL OPERATIVE** will find this Medicine the very thing to cleanse the blood and strengthen the system, and *very mild and pleasant to take.* The **PALE AND ONCE BEAUTIFUL LADY** has but to take this compound freely, and she will be speedily restored to **health, beauty and buoyancy.** The **HONEST FARMER**, the **CLERGYMAN** and **LAWYER**, and **MEN OF SEDENTARY HABITS**—it is your Medicine! After once using it, you will never be without it. It will improve your twenty-five per cent. The **MARINER** will find it the best medicine in the world for his use; it makes him, while at sea, hearty and rugged, and capable of great endurance and exposure; and when on shore, it renovates his blood, and restores and repairs his system.

The Largest Bottle, the Lowest Price, and the most Effectual Remedy in the World.

Portland and Ogdensburg

R. R. Co.

DUE IN 1900.

Free from Government Tax.

The line of the Road is from Portland, Maine, to Swanton, Vt., and is many miles the shortest communication between the Lakes and the Seaboard.

The Eastern division, upon which this mortgage is issued is now under construction from Portland to North Conway, White Mountains, a distance of sixty miles.

Forty miles are already completed, upon which trains are running. The remaining twenty miles are nearly completed, and will be ready for traffic early in July, 1871.

$1,200,000 cash subscriptions have already been expended upon the Road, and this mortgage of the unusually small amount of $13,000 per mile has been issued for the purpose of thoroughly equipping and completing the road, and covers all the real and personal property of the Company.

## STATE NEWS.

Barnum's Circus is getting well advertised by the cut-throats and pick-pockets.

Mrs. Rhoda Sweet died suddenly Thursday afternoon in Portland, of hemorrhage from the lungs.

The Maine Central extension is all ready for the rail and a considerable part of the track is laid.

Tuesday night, the lightning struck Ephraim C. Spinney's barn in Kittery, killing two steers and shattering the building.

On Sunday morning last, Mr. Josiah F. Cunningham of Swanville, was found dead in his bed. He had been unwell for some weeks but had recovered.

The annual session of the Maine Dental Association will be held in Lewiston on Tuesday, August 15th. The meeting will be held in Grand Army Hall.

Joseph Sylvester, a lad 14 years old, was run over by a freight train, of the Kennebec road at Woodford's corner, Thursday afternoon. His left foot was cut completely off at the ankle.

At the recent commencement of Colby University at Waterville, two vacancies in the board of trustees were filled with Hon. Geo. H. Pillsbury of Lewiston, and Rev. A. L. Crane of Hallowell.

Last Friday, Hiram Presson of Freeman, who served sixty days and upwards in the war of 1812, and was seventy-six last December, went with another man and mowed one acre of grass and back in an hour and five minutes.

In consequence of the great annoyance caused by the landing of excursions or pleasure parties on Dix Island, the authorities there have strictly prohibited the landing of such parties in the future.

The award made by the State Department at Washington, to J. R. Bodwell of Dix Island granite works, includes all that is to be contracted for at present, and even with the extensive facilities possessed by this company, will occupy several years, probably, in its erection.

The Biddeford Democrat says that, last Wednesday night, the post office and Goldthwait's store at the Pool, were broken into. In the former all the letters were opened, but a small amount of money secured. In the store the burglars did not stop long, as they became alarmed.

Monday, July 31st, a little girl, some two or three years of age, daughter of Hermon Young of West Gouldsboro' met her death in a strange manner. During the temporary absence of her parents, she strayed out through the open door, and was found with her head between the bars of a gate her neck broken, and life extinct.

The Bath Times records the death of William Hogan, a well-known contractor of Bath at the age of 47. Mr. H. built the Androscoggin Railroad bridge at Brunswick, the Custom House at Wiscasset, and did the granite work for the Soldiers' Monument in Lewiston, besides many other public works.

The New York Globe adds to the report of the engagement of Hon. Eugene Hale of Ellsworth, and Miss Chandler, only daughter of Senator Chandler of Michigan, a rumor that the lady's parents only consent to the engagement on condition that the young couple shall reside with them after the marriage, as they are unwilling to separate from their only child.

The dwelling-house, stable and store belonging to Chas. E. Carter, and the dwelling-house belonging to Mrs. Wm Dow, at Goodwin's Mills, Lyman, were entirely destroyed by fire Friday morning. The house of Mr. Wm. Dennett was also very much damaged. The fire originated in the store of Mr. Carter, and is supposed to be the work of an incendiary.

The body of Samuel Staples Esq., of Lubec, who was drowned by the capsizing of a vessel, some time last April, on the passage from Newport to Lubec, was recently picked up by a fishing vessel, on Georges' Bank, and carried into Newport. The body was undisturbed, clothes being buttoned tight around him, and his money and papers all right. It is something more than three hundred miles from the place where the body was found, to where the vessel was capsized.

AFFRAY AND SUDDEN DEATH.—The Eastport Sentinel says that John R. Hickey and George Pulk of Robbinston had a quarrel about Pulk's cattle getting into Hickey's field. Both got very angry, and Hickey struck Pulk with a hard-wood club, knocking him down. Pulk soon recovered and took Hickey by the collar and threw him into the ditch, and took the club from him. Hickey got up, and after a few angry words had passed between them, they separated. Hickey went a few rods and fell down and died in fifteen or twenty minutes. A post-mortem examination showed what is termed by physicians a fatty degeneration of the heart, with valves diseased.

Mrs. Jane L. Hoswell, who figured so conspicuously in the Hallowell tragedy in September last, has applied for a divorce from her husband. The libel was recently served upon him in State Prison at Thomaston, whereupon he addressed a letter to the Judge who is to hold the court at Bangor where Mrs. H. now resides, in which he states that he clearly proved at his trial that his wife and Laffin had been guilty of adultry, otherwise he would have been convicted of murder in the first or second degree, and therefore he respectfully prays the Court to grant her prayer for a divorce, as he "don't want any such a woman as she has proved herself to be, to have the right to call him her husband." He also expresses a desire that the Court may be pleased to allow her to take the name of her first husband, or her maiden name.—[Maine Standard.

SPIRITUALISM TO BE SCIENTIFICALLY TESTED.

The *Popular Science Review for July*, which is edited by Mr. Crookes, an eminent chemist and a Fellow of the Royal Society, contains an account by himself—partially confirmed and attested also by Dr. Huggins, the eminent astronomer, whose great and quite recent services in relation to the astronomical applications of spectrum analysis have been acknowledged in all quarters, and who is one of the most distinguished members of the Royal Society, and by Mr. Sergeant Cox, both of whom were present—of some very curious experiments made on Mr. Home's asserted physical powers as a medium, as it is called, though of course no countenance is lent by the experimenter or his friends to the hypothesis of the agency of invisible beings of which the word "medium" is a remnant. Mr. Crookes and Mr. Sergeant Cox both seem convinced that these experiments prove the existence of a peculiar force which they call "psychic," proceeding directly from the nervous system of specially constituted persons, and which is exerted independently of the muscular system—probably propagated, suggests Mr. Sergeant Cox, who, as the least scientific, is the rashest of these speculative inquirers, through that "nerve-atmosphere" of various intensity enveloping the human structure" which Dr. Richardson has discovered. Dr. Huggins, the most eminent scientific man of the three, is by far the most cautious and reserved in his statements. He gives in his general adherence to Mr. Crookes' account of the experiments: "your proof appears to me to contain a correct statement of what took place in my presence at your house" but as to one of the most curious facts involved in it,—namely, that an accordeon continued to float about "without any visible support" in the copper wire cage contrived for it by Mr. Crookes, after Mr. Home's hand had been entirely withdrawn, and under these circumstances to play musical airs without being touched by any hand, Dr. Huggins states that his position at the table did not permit him to be a witness to the withdrawal of Mr. Home's hand from the accordeon, though he writes to Mr. Crookes that "such was stated at the time to be the case by yourself and by the person sitting on the other side of Mr. Home." He adds, "the experiments appear to me to show the importance of further investigation; but I wish it to be understood that I express no opinion as to the cause of the phenomena which took place."

Dr. Huggins' evidence is of the greater weight, so far as it goes, from the great caution and reserve with which he gives it.—He appears to confirm generally the accuracy of Mr. Crookes' description, except as to the performances of the caged accordeon when Mr. Home's hand was removed but he evidently does not regard the experiments as going further than to justify and even show "the importance" of further investigation.—Even this from such a witness as Dr. Huggins is remarkable testimony.

But what was the precise nature of the facts to which, supposing them to be amply authenticated by future tests, such as Dr. Huggins would regard as satisfactory, these experiments point? It is this—that in the presence of certain specially-gifted or specially-organized individuals (whether the facts, if true, depend on the organization, or on the power of will, or on the nervous sensibility—in a word on what they do depend—is at present all a matter of speculation,) a force develops itself which produces, without contact, many of the results of muscular effort directed by a trained musical taste and ear. For example, Mr. Crookes (all whose test-machinery had been prepared without the smallest knowledge on Mr. Home's part, Mr. Home seeing it for the first time when he entered Mr. Crookes' house) had prepared a mahogany board three feet long by nine and one-half inches wide and one inch thick, one end of which rested on a firm table, and the other was supported by "a spring balance hanging from a substantial tripod stand," with "a self-registering index" attached. Thus any pressure exerted on this board at any point nearer to the balance than the spot where it was supported on the table, tended to depress the end supported by the balance to an extent registered by the index—the board moving round the table-supported end as round a fulcrum. Mr. Crookes, to test the balance, stood on one foot at the end of the board nearest to the table, and Dr. Huggins said that the whole weight of his body then applied (140 pounds) only sank the index at the other end to an amount equivalent to one and one-half pound if applied to the balance end when he stood still, and to two pounds when he jerked up and down. Mr. Home sitting in a low easy chair, simply applied his fingers lightly to the exact point where the board rested on the table (so that even hard pressure there would have only had the effect of securing the fulcrum instead of depressing the other end of the mahogany board,) and under these conditions the opposite end was depressed by an amount which varied, as if in waves, between 3½ pounds and 6 pounds, which was the maximum attained.

This experiment was in some respects the most curious, as being the one which was in every respect the most above-board,—both literally and morally—and which was apparently fully attested by Dr. Huggins, as well as by Mr. Sergeant Cox and Mr. Crookes. If repeated often enough in the presence of competent witnesses, it would undoubtedly show the real existence of some new force not due to muscular exertion.

The other experiment was made with an accordeon imprisoned in a drum-shaped cage of Mr. Crookes' own invention; the cage being made of laths of wood and copper wire to prevent access from outside; but this cage was placed beneath the table, and though Mr. Sergeant Cox and Mr. Crookes both seemed to have watched it there, and to have taken what they believed to be very careful guarantees that Mr. Home was not juggling, there can hardly be so much confidence placed in the reality of the facts asserted as in the case of the lever experiment. The case was so made as to surround the accordeon entirely, but not quite to touch the top of the table, leaving space enough to admit one of Mr. Home's hands so far as to enable him to hold the accordeon by the top. The observers on each side kept their feet on Mr. Home's feet to prevent any use of them, and one of Mr. Home's hands was placed on the table and carefully observed; the other at first held the accordeon by the top, but the rest of the accordion was completely inside the cage, so as to be inaccessible. Held in this position, the accordeon first began to vibrate and then to play tunes inside the cage.

Mr. Crookes avers that he put his hand on that hand of Mr. Home which held the instrument, and that he found it absolutely still at the very moment the instrument was playing. Nay, he asserts, as we have already stated, that when Mr. Home removed his hand a together, and put both of them above the table, the accordeon continued to float and play tunes inside the cage with no apparent support. Of course, as we have said, these asserted facts must be taken with great reserve, unless verified by sufficient repetition under every guaranty the scientific world may suggest. But should they be so verified, and we think the existing testimony is quite sufficient to make this hypothesis conceivable, a good many more matters should be carefully investigated; for instance, this—whether any tune could be so played which Mr. Home himself could not play on the accordeon, or any which none of the persons present were able to play on the accordion, or any with which none of those present were even acquainted; or whether, if none of these cases happened, it was only Mr. Home's knowledge of music, or indifferently that of any other of the persons present, which the tune appeared to represent.

One thing is certain, that if the facts asserted to be true at all, the force moving the accordeon must be in some way connected with a musically educated *mind.* The wind does not execute even "a well known sweet and plaintive melody" on the Eolian harp.—The movements of the accordeon must clearly have been governed by the musical associations of some mind, and whether these were voluntary or involuntary—and either the one or the other is quite conceivable—it would be possible, one would think, to determine the mind in which they originated. Supposing the fact established, there is in it little that is more wonderful than the power of absolutely writing by telegraph so that specific vibration given to the wires at one end cause given to the wires at one end cause given words to be written off at the other—for of course, if there really be "a nerve atmosphere of various intensity round each individual," the vibrations given to such an atmosphere by distinct acts of thought might produce corresponding contractions in the accordeon.

This is, however, purely speculative; but if these things are true at all, it must be determinable where the mental source of the tune played by the accordion is, and no point could be of greater interest. The analogy would be close—though there would be one great difference—with established facts of the kind sometimes called electro-biological. We have been repeatedly assured by men of the highest trustworthiness that the power belongs to men of certain temperament, to influence by strong silent will the action of certain other persons, so that by expending a great deal of *silent* effort, for instance, on the desire that a given man shall scratch the tip of his left ear, that man is at last compelled, with no knowledge whatever of the reason, to scratch the tip of his left ear. That such facts as these have been repeatedly verified is, we believe, certain. And the only difference in this case may be that the same kind of effect is produced on the notions of an inanimate object like an accordeon—certainly most curious, as the facts we have alluded to are also curious, but certainly also not more impossible than the others. What, however, we now wish to insist on is that there is *prima facie* evidence, a true bill found which ought to be sent for scientific trial, in relation to this matter. Even Dr. Huggins declares this much, and Dr. Huggins is an authority such as no scientific man will dare for a moment to dispute. Whether there be a new force on the eve of discovery is not yet proved; but that there is sufficient suspicion of the exertion of such a force to render it most desirable that the scientific world should either confirm or explode the hypothesis of its existence, and in the former case study its laws, is hardly disputable.

THE LIQUOR RIOT IN LOWELL.

A correspondent writing from Lowell, Mass, on Thursday, gives the following account of the rum disturbances in that city:

The first important liquor seizure in this city for years, occurred this afternoon at Patrick Dempsey's wholesale liquor store. Mr. Dempsey was absent at Sharon Springs, N. Y., and the store was in charge of John J. Redmond. The seizure was made by officers Davis of Somerville, Morse of Boston, and Souther of Charleston, assisted by Joel Powers of this city.

After one team had been loaded and started some one in the crowd of two or three hundred people who had collected, unloosed a nut from one wheel so that a portion of the wagon fell down. Some one else in the crowd grabbed the horse and a volley of stones was thrown. Mr. C. H. Hanson, one of the teamsters, was knocked down by one. Mr. Souther was hit by another, and another teamster was also hit. Officer Morse was after a boy whom he saw throwing a stone, and the crowd rushed to the boy's rescue; Souther came to Morse's assistance, when Michael Pendergast, a man about 60 years old, struck Souther from behind with the iron stem of a hoe, giving him a severe cut on the right temple, which prostrated him and rendered him unconscious for an hour. As Souther fell he fired his revolver once in the air. Discharging it again, the contents struck the ground without effect. On seeing him fall, Morse grabbed the revolver, which had fallen to the ground, and firing it at Pendergast, hit him in the right side of the breast, the ball glancing off and passing out and completely through the fleshy part of the right arm above the elbow. Pendergast had commenced to run before the shot was fired. He was afterwards found in an alley-way between a privy and shed, his wounds bleeding profusely. He was arrested. No one else was seriously injured.

After the affray two other teams were loaded and driven off without trouble. Thirteen barrels, containing it is supposed, 800 gallons of liquor were taken.

The affair is the cause of much excited discussion on the streets to-night. Pendergast says he is innocent. The crowd was controlled, and, in fact, subdued, by the influence of prominent Irish citizens, who counselled obedience to the law. Mr. Dempsey arrived home to-night, and is quite surprised, as he never has kept a bar for retail, has had no request to discontinue, and regrets exceedingly the disturbance of to-day. He is one of our most respected citizens.

Chief Constable Jones' force on Friday consisted of sixteen deputies from Boston, and eight from Middlesex county. The amount of liquor seized was about one thousand gallons, including beer. Ten of the constables remained over night.

OUR DEALING WITH A "ROUGH" CUSTOMER. It is never particularly pleasant to be obliged to deal with "rough" customers, but public journals as well as policemen are frequently called upon to discharge such disagreeable duties in the line of duty. There is at least one newspaper in this State which is generally recognized by contemporaries as belonging to the class mentioned, a reluctance to encounter the volleys of abuse and showers of filth which it is accustomed to meet all its opponents having earned it a comparative immunity from criticism. We have not gone out of our beaten path to invite its unsavory epithets, neither have we evaded the performance of duty through a desire to escape the vituperation which is inevitable in dealing with such characters. We speak of the Belfast Journal and in recounting our recent dealing with that paper we propose to show to those who have not recognized the above picture, a few samples of the style of a Democratic organ. More than a week subsequent to the last ... New York city ... which had become familiar to all who read the papers, the Belfast Journal published an ... [illegible]

This rejected address would not have been referred to by us had not the Journal, in its chagrin at finding itself shut out from reputable columns, hastened to parade the letter in its last issue, imbedded in a setting of characteristic slime. It noted the hour and minute of the delivery of the important epistle, to which we replied at our convenience on the following day, and exasperated at being thus snubbed, let off its wrath in the following elegant sentences.

The reckless falsity with which the Bangor Whig misrepresented the position of this paper in regard to the New York riots, determined us to subject it to a little test of sincerity and fairness. Accordingly we wrote and sent to the editor of that paper the following proposition

[Here follows the letter]

This note was delivered to the editor of the Bangor Whig at half past three o'clock on Tuesday afternoon. The Whig of the following morning makes no allusion to it, nor has any response whatever been received. The inference is plain. Having deliberately falsified concerning the position of this paper, the Whig cannot publish the article from our columns without being self-convicted. It can twist and turn, and lie about us, but when the fair and simple proposition is made to publish in full the obnoxious article, with any comments it may choose to append, it sneaks away, and allows not to know that any proposition has been made. What a fine, ... and elevating ... In a ... the Whig of Bangor ... Democratic ...

Gen A. B. Thompson, of Brunswick, died at his residence on Friday afternoon at an advanced age. The Portland Advertiser says "He was for more than a generation a leading member of the Democratic party, and one of its advisory counsellors. In 1851 he was State Treasurer; and 1834, 1836, 1837, 1839 and 1840 Adjutant General of the State." Gen Thompson was a prominent member of the Masonic Fraternity, having been at the head of nearly all the Grand Masonic bodies in the State. He was Grand Master in 1838, 1839 and 1840, during the time when the institution languished on account of the anti-masonic war waged against it, and for his faithfulness and ability was held in high estimation by his brethren. He will be buried with Masonic honors this afternoon by the Grand Lodge of Maine, and it is expected that the Grand Commandery will also be present.

We have thus given our readers some specimens of the swash-buckling style of this "rough" customer, which has not attempted to give its readers an idea of the statements made by us, and which dares not make a specific challenge of the justice of our rebuke. We shall doubtless be treated to other samples of its billingsgate more fully saturated with the filth which passes for wit among its readers, but it cannot erase the brand we have fixed upon it, and we shall not be deterred from dealing justice to it in the future by any exercise of its peculiar proficiency in vulgarity and insolence. Such papers are the very prospectuses of vice and disorder, and their abuse should be welcome to all persons of good repute. A newspaper which cannot defend itself in its own columns is incapable of decency, and when an editor takes to writing letters to other journals it is plainly seen whose withers are wrung. We have stated our willingness to credit the Journal with any retraction or modification it may choose to make, and until then we adhere to the charge that its course has been utterly disgraceful. We shall be driven from our position by no epithets and the indulgence in them is simply a waste of effort.

We have compared the Belfast Journal with Brick Pomeroy's paper and the Police Gazette—we stand ready to apologise to the latter papers if justice shall demand it. We have stated that no reader of the Journal would change his opinion of its character if we should retort after its own fashion by calling the editor a blackguard—our readers can judge for themselves from the above citations which are mildly indicative of its capacity for vilification, how fully we were warranted in the assertion.

THE TAMMANY THIEVES.—Much comment is occasioned in New York by the fact Mayor Hall and Comptroller Connolly have addressed a joint note to the President of the Chamber of Commerce, asking him to call a meeting of that body to appoint a committee to make a full examination of the public accounts and condition of the city and county debt, and report the result.

The Times of Saturday morning, in its editorial in reference to the call of the Mayor and Comptroller for an investigating committee to examine the city accounts, says "Considering the result of one famous examination of the Comptroller's books by a 'committee of citizens,' the public generally would be inclined to laugh at any repetition of the experiment. People have not forgotten the certificate which J J Astor, Mr Moses Taylor, and Mr Marshall O Roberts gave at all on the eve of an important election to the effect that all was right in the Comptroller's office. They may say that their report was confined to a particular branch of the finances, but the community at large regarded it as a general certificate to the honesty of the city authorities. For this purpose alone was it wanted by Connolly, and for this purpose was it used. Let us have no more humbug about 'committees of citizens.' The Taylor Roberts committee sickened the public of that sham. At present Connolly stands accused of complicity with others to steal the public money and while his defense has often been promised it has not yet made its appearance. Men would have been anxious to vindicate themselves from so grave a charge without a moment's loss of time but Connolly has not done it because he cannot do it, and he is well aware that we know it. Now let us see the accounts. The public have waited patiently enough for them and the rural Democrats especially think it high time they were produced. Can nothing induce Hall and Connolly to show their hands. The Chamber of Commerce cannot permit itself to be made the sole arbiter of a question which virtually concerns every citizen, without tacitly committing itself to the principle that the Comptroller's books shall only be open to inspection at such time and to such persons as the Comptroller may think it fit to dictate."

The Herald comes cautiously to the support of the Tammany project for throwing dust in the eyes of another committee and says in reference to the request of Mayor Hall and Comptroller Connolly to the Chamber of Commerce to investigate the city and county accounts that the high character of this body would insure a report that could not fail to give satisfaction to the people.

The Tribune declares that until the city officials publish the accounts which the public have a right to see, every temporizing suggestion from them is an insult to their long-suffering fellow citizens. Every expedient for delay is a tacit confession of their guilt.

The Evening Post disapproves of the strongest terms of the Mayor's and Comptroller's appeal to the Chamber of Commerce, which it says is mere trifling and to which the Chamber cannot in common prudence listen.

It was rumored about New York on Friday that the new call for a meeting to investigate the alleged swindles and corruptions of Tammany was also a trick of Tammany, and it was said that when this meeting takes place it will be found that if Tammany officials do not control it they will divide it, and secure at least a partial victory by obtaining the passage of two sets of lukewarm resolutions. Among the signers of the new call are many ship-owners, and Tammany claims that it can make them act its pleasure by threatening through the Quarantine officers, to stop their ships a long time in Quarantine, if any resistance is offered. Among these signers are also a large number of brokers who are so complicated by Tammany's manifestations that if it falls, they must either fall with it or be seriously injured in pocket. They will, therefore, be very likely to consult their pecuniary interests, and do all in their power to uphold Tammany.

The rumors were doubtless circulated by the ring to weaken the movement, as the character of the signatures show that business is meant.

Governor Haight, of California, is the Democratic candidate for the office he now holds. The Democrats there profess to be opposed to railroad subsidies, and Gov Haight is the anti subsidy candidate, just as Tweed will some day appear as the anti election fraud candidate in New York. It has been ascertained that Gov. Haight signed, during the last session of the Legislature, seventeen or eighteen subsidy bills, and that these bills which he made laws, though they call for an actual expenditure of only two millions and a half, may be made to cover not less than eighty-two millions, so ably were they drawn. During the war we heard of Democrats who were in favor of the war, but opposed to carrying it on. Gov. Haight seems to be that kind of Democrat.

The election in North Carolina has resulted in a complete defeat of the Democrats, and their scheme to revolutionize the State by defying and overthrowing the Constitution. The result in one year which the loyal men of the country will rejoice. The "The Old North State" is redeemed.

## PORTABLE RANGE.

THE NEW RANGE excels anything of the kind ever offered for sale. It requires much less space than ordinary cooking stoves, and is more economical. It will heat as much water as a range set in masonry.

The HOT CLOSET retains the heat usually radiated from the bottom, which is, during the summer months, WORSE THAN WASTED, there by not only SAVING FUEL, but making the KITCHEN MORE COMFORTABLE, besides furnishing an admirable place for warming and keeping food warm, warming plates, &c. The door can be removed during cold weather to allow the heat to escape into the kitchen.

Coals are separated from the ashes in the SIFTING CHAMBER.

The owner, having removed from the city wishes to sell this house, situated on West Broadway. It is a large new, two story house with a French roof, and is furnished throughout in the best manner and with all the modern improvements. It is situated on one of the pleasantest streets in the city and all of the surroundings are as good as could be found anywhere. The lot contains about seven eighths of an acre (142 feet on the street and about 250 feet back) and is all under a high state of cultivation. The soil is very rich and light. There are nearly all kinds of fruit trees and shrubbery on the lot, and a nice flower garden beside the house. It is seldom that such a chance is offered to persons wishing to buy a nice house. It must be sold immediately. For particulars inquire at No. 4, Broad Street, Bangor.

## DOMESTIC NEWS.

### FROM NEW YORK.

NEW YORK, Aug 6.

The first financial statement of the city and county debt which Mayor Hall announces will hereafter appear regularly on the first of every month was published this morning. It shows that the funded debt of the city July 31 to have been $54,231,708 and of the county $24,791,366, from which deducting the sinking fund of $18,880,861 there remains as the net funded debt of city and county $80,242,376. The temporary debt recoverable by assessments on property for improvement by which the debt is incurred is $11,823,300, and the revenue bonds to be paid from the taxes of the current year, $22,700,000. The debts incurred for expenses growing out of the late war $1[illegible]. Among the city expenditures during July are $41,427 for advertising [illegible] stationery $149[illegible] for salaries [illegible] for street cleaning, $10,000 for contin[illegible]. Among the county expenses are [illegible] armories and drill rooms and $97[illegible] for salaries.

A Port au Prince letter of the 13th ult. [illegible] that President Baez of San Domingo, is [illegible] the Haytien insurgents [illegible] of the late President Salnave, arms and munitions of war received from New York, and in retaliation have ordered 5000 troops to the frontier with orders to make reprisals and shoot every one found under arms [illegible] in his recent engagement with Cabral [illegible] San Juan, took fourteen prisoners, all of whom he shot immediately, but four days after Cabral retook San Juan and being re-inforced and supplied with arms will establish a provisional government in the south of the [illegible] and at once commence more active operations against Baez. The crops in Hayti [illegible] promise a large yield.

The five German consulates in this city are to be consolidated into one, under the title of consulate general of the German Empire.

Contracts were executed yesterday to furnish supplies to the county institutions, including 180,000 pounds of bread at 3 cents, 45,000 pounds of fresh beef at 4 cents, and 150,000 pounds of bread at three cents.

The school-ship Mercury sails to-morrow on a fortnight's cruise to Cape Cod and eastern ports.

George C Freckle, book keeper and cashier, confessed yesterday to the embezzlement of $40,000 from Mobbe and Corbes, and Wm A Kobbe & Co, and his employer, and was committed for trial.

There were less than one half the usual number of Sunday passengers on the Staten Island Ferry to day.

Wm Carroll of Derby, Conn, and Jno Harrington of No 1 Bennett avenue, Boston, each 14 years old were committed to jail yesterday in Milford Pa for placing obstructions on the Erie Railroad track near Port Jervis. They said when arrested to see how high the locomotive would jump. They had fastened an inverted chair on one rail and wound a chain repeatedly around the other, but the engine passed safely and the boys [illegible] were soon arrested.

Joseph Dubeh died in Brooklyn yesterday from injuries received by the explosion of the Westfield and the body of Michael McQuade, supposed to be another victim of the disaster, was found in North River.

Madame Louise Lichtmay offers her services and those of her entire company for the performance of a German Opera for the benefit of the surviving sufferers.

Justice Scott to-day issued an injunction to compel the occupant of a tenement house adjoining the Alanson Methodist church in this city to stop operating sewing machines of which he employs a great number, during church services. The tenant, a Jew named Keryot [illegible], with a number of his workmen, made a vigorous resistance to the officer who attempted to serve the injunction, for which he was arrested and committed in default of $1,000 bail.

### VICTORY IN NORTH CAROLINA!

THE DEMOCRATIC CONVENTION SCHEME DEFEATED BY 10,000 TO 15,000 MAJORITY.

NEW YORK, Aug 5.

Senator Abbott telegraphs the Tribune from Wilmington, N C, as follows: "We have carried the State against a convention by ten or fifteen thousand majority."

WASHINGTON, Aug 4.

Returns from North Carolina received by the Executive Committee here indicate a positive defeat of the Constitutional Convention party. Wake county in which is the city of Raleigh gives a Republican gain of 200. [illegible] county 100, Mecklenburg county 275, and New Hanover 514. Despatches also say that the Conventionists admit their defeat.

WILMINGTON, N C, Aug 5.

The prosecution of John C Bicknell the New York broker for fraud in the disposition of State bonds has been abandoned, Bicknell agreeing not to sue for damages.

The indications seem more favorable to-day for the defeat of the convention by a small majority. The Republicans claim the State by from five to ten thousand majority, while the conservative still say the issue is doubtful with the chances in their favor. Returns have been received from only about one-third of the counties, and they are not official.

### FROM WASHINGTON.

WASHINGTON, August 5.

The Ku Klux investigating committee to-day concluded the examination of witnesses from the south and took a recess till September [illegible]. Among the last witnesses was Lt [illegible] Pickett of the 16th U S infantry, who has been for some time in command of a detachment of troops in Pontotoc and Monroe counties, Mississippi. He testified that the Ku Klux organization existed in five [illegible] northern counties of Mississippi on the border of Alabama, to which he believed it was confined in the former State. The purpose of the Ku Klux was to intimidate colored voters and drive away northern men from the elections. Within the knowledge of [illegible] they had murdered nine negroes in Monroe county in the four months he had been stationed there. He believed the presence of troops has had good effect in that vicinity.

WASHINGTON, D C, Aug 6.

The Commissioner of Patents yesterday decided that no party was entitled of right to [illegible] patent more than one improvement upon a given article of manufacture, unless the several improvements presented were severally related to or connected with each other.

The first claim against the United States filed with the British agent in this city under the Treaty of Washington, is that of James Crutchett, a resident of this District, and involves a large sum of money. Crutchett is a British subject, and our government at the commencement of the war seized his Mount Vernon car factory near the railroad depot, for military purposes, by which the machinery was rendered useless and a profitable business destroyed.

### FROM THE PACIFIC COAST.

SAN FRANCISCO, Aug 6.

The Italian demonstration in honor of the [illegible] of Victor Emmanuel took place to-day. Perfect order and quiet prevailed.

The procession was one of the most brilliant ever seen here, nearly [illegible] the Catholics being visible. The [illegible] American flags were carried side by side in each division. The German and Swiss rifle companies also carried their national flags. A temple of liberty with waving [illegible] national colors represented [illegible] Italy. A full rigged felucca and car, representing Rome, surmounted by a statue of the wolf suckling Romulus and Remus were among the finest features of the procession. The police had made extra preparations, but there was not the slightest necessity for their interference.

### THE TURF.

LONG BRANCH, N J, Aug 5.

In the national steeple chase to-day the [illegible] for all ages, about 3 miles was won by Kim John, beating Vesuvius, Milesian, and [illegible] Jim Tisdale. Handicap for a purse of $700, all ages, mile heats won by Morchrist in 1.50¼ 1.52¾ and [illegible], first heat having been dead with climax, Hunter third and [illegible] distanced on the first heat. ### FROM PORTSMOUTH N H.

PORTSMOUTH, N H, August 5.

More than four inches of rain have fallen here during the past week. A heavy thunder shower early this morning, gave us fully two inches and another shower fell this afternoon.

Entries of both hand and steam fire engines are coming in daily for the muster, Sept 6th and 7th, and about forty are thus far registered.

The thermometer indicated 93 on Friday and 88 to-day.

### OFFICERS ARRESTED.

MILWAUKEE, Wis, Aug. 5.

The Revenue cutter Andrew Johnson was sent to Beaver Island Friday, to protect the United States Marshal, who was resisted while in the discharge of his duties by the sheriff and a mob. To-day quiet was restored by the arrest of the sheriff, a justice and two citizens implicated.

### A RACER DRIVEN TO DEATH.

BUFFALO, N Y, Aug 5.

The celebrated trotting mare "Purity," while exercising on the driving park this morning dropped dead from heat. She was entered for the 2.24 and 2.30 races for a $10,000 purse at the time of the accident. She had trotted over the track at 2.25 and was on the second round on a 2.20 gait. Goldsmith Maid made 2.19¼ this morning while exercising.

### MURDER.

CONCORD, N H., Aug 6.

John Eaton of Guilford village, while walking home from Barnum's entertainment at Laconia last evening, became engaged in an altercation with a negro named Hall, when Hall drew a knife and stabbed Eaton thirteen times in various parts of the body. His wounds will undoubtedly prove fatal. Eaton is still in an unconscious state. Hall fled to the woods and at last accounts had not been arrested.

### FROM CINCINNATI.

CINCINNATI, O, Aug. 7.

The friends of Clement L. Vallandigham held a meeting at Dayton yesterday, and appointed a committee to report a plan for erecting a monument to his memory.

The Sunday laws received their full share of pulpit attention to-day. Rev. Dr. Hatfield of the Methodist Episcopal church, said that foreigners understood that Americans will not be ruled by their dictation in matters of this kind. If they should persist in their efforts to destroy the institutions that made our country what it is, the people would sunder the party ties and meet them at the ballot box as one man.

The Enquirer this morning says the Aldermen will hardly acquiesce in a vote in the Council repealing these laws.

### FIRE.

SYRACUSE, N Y, Aug 6.

D C Salmon's extensive factory and warehouse were totally destroyed by fire this afternoon. Loss $40,000, insured $30,000.

### MISCELLANEOUS.

TERRE HAUTE, Ind, Aug. 6.

Lubricating oil was struck here last night at a depth of 1,636 feet and it is thought that it will prove to be a forty barrel well. Fifteen or twenty barrels have already been pumped out, although the water is not yet exhausted.

OMAHA, Neb, Aug 6.

All the lands belonging to the Union Pacific Railroad in Dodge county Neb, were yesterday advertised for sale for non payment of taxes.

### THE WEATHER.

WAR DEPARTMENT,
OFFICE OF THE CHIEF SIGNAL OFFICER,
WASHINGTON, August 6—7.30 P. M.

*Probabilities.*

The barometer will probably fall from Michigan to Nebraska and northward, and continue highest over Pennsylvania and Virginia. Local rains are probable for Monday from Louisiana and Florida to the Gulf coast, and the condition remains favorable for local storms in the afternoon from Missouri to Michigan. Partially cloudy and pleasant weather are probable for the Northern and Eastern States.

## LOCAL AND OTHER ITEMS.

—Daylight is briefer.

—The moon is hauling in its horns.

—To let—a stand for a water tank on the approach to the Custom House.

—Camping out is remarkably popular this year.

—Watermelons are brought to our market from Boston in large quantities.

—Pigeons are scarce in the market, and those who are feeding them for a catch, say they do not like to be corned.

—We accept the Portland Advertiser's "apology." "Burzied" was doubtless the word.

—Bangor has licensed 225 dogs. It seems as though that would be a good place to get bark.—Machias Republican.

—A number of our citizens propose to visit St. John and see the great races, August 23d and 24th.

—Three sharp but welcome showers visited us Saturday, one in the morning and two in the afternoon.

—The people of Kingman have built a school house 28x15, where their children are receiving the rudiments of education.

—Several citizens of Hermon found Bangor "ale" too strong for them and spent Saturday night in the lockup.

—Governor Perham, who has for a short time past been visiting Hon S. C Hatch of this city, left Saturday evening for Lincoln, where he will remain a few days.

—Calais is a nice place for young men to go to. The local paper there says that two thirds of the wealth of the town is to be inherited by young girls.

—Farmers from all sections of the country about here state that the bean crop will be a total failure—the grasshoppers having taken the entire growth even to the stalks.

—A party of twelve young gentlemen start from this city this morning in the yacht Planet, for a fortnight's trip down river and along the coast.

—Rev. J P. Weston, formerly Principal of Westbrook Seminary, now President of Lombard University, Galesburg, Ill, is on a brief visit to relatives in Brewer.

—Many residents of this city are annoyed by worthless dogs, who trespass upon their flower gardens. If the dogs are not mad, the owners of such places are.

—Black lace mittens are said to be coming into fashion again. They display a fair hand to advantage, and are certainly far more comfortable than kid gloves for midsummer wear.

—Quite a number of the Methodists of this city are preparing to attend the State Campmeeting, which opens on Tuesday, on the Kennebec Valley Camp ground, three miles above Richmond on the Kennebec.

—A special dispatch from Bar Harbor states that the steamer C B. Sanford, having on board the Bangor Lumber Dealers' Association, did not reach there until 3 o'clock yesterday afternoon. All safe.

—The scarcity of feed in some sections of the State, not far distant from here, is exemplified by the fact that farmers have offered three cows, to be taken now, with use of them, for one cow next spring when wintered out.

—In the case of W A Cromwell vs. N W. Bingham, special agent of the Treasury Department, Judge Clifford of the U S, Supreme Court has overruled defendant's motion for a new trial, and the verdict of the jury giving plaintiff the sum of $2,759, is sustained.

—During the squall Saturday afternoon, brig Fannie Butler, lying at Crosby's wharf below this city, broke adrift, was driven across the river and went ashore on the Brewer side. She was hauled off by the steamer C. B. Sanford and suffered little damage. Several other vessels broke their moorings, but were not injured.

—Messrs J. P & F R. Webber, lately purchased a tract of about five thousand acres of land in the north part of Lincoln, with mill property and farm which is said to be quite valuable. We learn that they contemplate improving the mill property by adding a gang saw, and machinery for small manufactures.

—The Directors of the Somerset railroad met at Norridgewock, August 2d, to perfect their bonds to complete the road. At an adjourned meeting Thursday, the citizens subscribed liberally, and expressed their determination to have the road ironed and in operation from Waterville to Norridgewock in the coming fall.

BRIGNOLI CONCERT. The second concert by the Brignoli Company will be given in Norombega Hall this evening, and will, we trust be attended by a larger audience than the first, as it is not often we have the opportunity of hearing artists of such merit. Reserved seats may be procured at Bugbee & Co.'s during the day and at the box office in the evening.

—Mr. William Chase of Patten, while attempting the other day to get into an ox-cart, was thrown down by the oxen starting quickly, and one wheel struck him on the back and passed over his right shoulder, bending him double. Strange to say, though the cart was heavily loaded, none of Mr Chase's bones were broken and he is rapidly recovering from the severe bruises he received.

EXCURSION TO CAMDEN. Owing to the showery weather Saturday, the excursion to Camden on the steamer City of Richmond was postponed to to-morrow, when the party will start at 1 o clock P M, arriving at Camden at 4, and returning so as to reach this city by midnight. A large party had prepared to go Saturday and it will no doubt be augmented in size as the trip will be delightful.

—Burglars entered the grist mill of Samuel Bansdell at West Waterville, Friday night, by breaking a pane of glass, through which they reached the window fastenings and raised the sash. They broke open the safe by drilling through the top, turning back a piece of the iron, chiseling out the filling and boring through the wooden lining into the interior. They abstracted from the safe between $40 and $50 in scrip and bills, and effected their escape.

SERIOUS ACCIDENT IN FRANKFORT. Last Thursday as James H. Killman of Prospect, a workmen in the employ of the Boston and Maine Granite Co, was assisting to cant a wide block of granite to which oxen were attached, the chain slipped off and it fell back forcing the crow bar against his face, by which blow his skull was fractured and jaw broken. Mr Killman is about 60 years of age, a citizen of Prospect, and has a wife and family. His recovery is doubtful.

PISCATAQUIS CENTRAL PARK. Our readers will see by the list of entries published in another column, that some of the fastest horses in Maine will trot in the races on the Piscataquis Central Park, Foxcroft, Tuesday and Wednesday afternoons, and some high speed will be shown. There will be a very large attendance, as special trains will be run up over the B & P. Railroad each day, leaving this city at 7 30 in the morning and returning at 8 o'clock, P M, the second day. One fare the round trip will be charged on this road, and it is expected that arrangements will be made with the Maine Central to sell round trip tickets good from Monday to Thursday on the regular trains to Dexter and thence to Dover by stage.

COLBY UNIVERSITY. Our correspondent "F F" writes that the Trustees of Colby University have voted to completely renovate and remodel the North College dormitory, and the work of repairs is already begun. The rooms are to be made higher and larger, and will be finished in suites, each having a bed room and sitting room. Every apartment is to be furnished in the best style, with all modern improvements, and the whole building will be warmed with steam. If the experiment succeeds all buildings of the College will be warmed in the same manner. The walls of the Laboratory are nearly up and there are ample funds to finish and furnish it. Not a year has passed for five years but that the Institution has received large donations, so that at present the funds and property amount to about $700,000.

### BANGOR POLICE COURT.

BEFORE JUDGE CLARK.

*Saturday, Aug 5th.* State vs James H Hasey. Drunkenness and disturbance. Fined $5 and costs and in default of payment committed to jail.

State vs Angus McGinnis. Same offence, fined $3 and costs.

State vs Mary Cosker. Same offence, fined $5 and costs.

State vs Rufus Antoine. Larceny of a watch. Fined $5 and costs.

### BANGOR PRODUCE MARKET.

SATURDAY, Aug 5th 1871.

The following report is obtained by particular observation on the market, and the quotations are the prices paid for produce from the country teams this day, or about the average for the week past.

HAY.—The supply of new hay has been quite large during the week and the most of it of very good quality. The price has ranged from $28 to $30 per ton. There have been a few loads of old hay on the market, which have sold loose at $32 to $33 per ton, for the very best article.

STRAW—Loose straw comes in sparingly, and we should quote the price from $10 to $13 per ton.

OATS—Old oats are worth on the market 85 cents per bushel.

BEANS—There are very few beans now in the hands of the farmers, and consequently few offered on this market. Yellow eyes are worth from $2,75 to $3,00 per bushel, and extra hand picked pea-beans from $3,00 to $3,25.

BUTTER—The market has been better supplied with this article the past week than for a number of weeks previous, and the prices has taken the range of from 33 to 35 and 38 cents per pound, according to the condition and quality of the article.

EGGS are coming in plenty, and sold at 20 cents per dozen.

POTATOES—New potatoes of the early rose variety are plenty in the market and of very nice quality. The price to-day was down to 75 to 80 cents per bushel.

BLUEBERRIES are very plenty in the market and have sold from the teams during the week at $2,50 to $3,00 per bushel.

FRESH MEATS—Round hogs are difficult of sale during the present hot weather, at from 7 to 8 cents per pound. Beef is plenty on the market and selling fresh by the quarter, or side, at 5 to 10 and 12 cents per pound, according to quality. Lambs sell by the side or quarter from 10 to 11 cents per pound.

WOOL, &c—The price of wool has advanced a trifle, the best washed selling at 58 to 60 cents per pound. Lambs' pelts are worth from 85 to 90 cents each, veal skins 20 cents per pound and hides 7 cents.

COAL—The best qualities of stove and furnace coal are now sold and delivered at from $7,50 to $8,00 per ton. Soft coal is retailed from the carts at one shilling per bushel.

WOOD—The best dry hard wood is worth from $6,50 to $7,00 per cord, and the best soft do, from $4.00 to $5,00 per cord.

THE WESTFIELD INVESTIGATION.—At the resumed investigation Saturday morning, into the causes of the Westfield disaster, David Andrson stated his belief that the boiler was wrenched asunder fore and aft by pressure of 30 pounds. There was no want of water.

Charles H. Haswell, engineer, was of the opinion it burst at the pressure indicated, 27 pounds, commencing at the weak point where the old crack existed in the sheet of iron highly crystalized, that is inferior to the purpose.

The crack could not have been detected at the last inspection.

Levi F Smith created amusement by his evidence. He believed the explosion was caused by igniting of gases in the boiler, he believes steam is a gas. When asked what other gas was in the boiler, he answered, it might have been oxygen.

THE MONTREAL CUBAN EXPEDITION. The investigation into the Cuban expedition was continued at Montreal before Judge Coursol on Friday. Major William Robinson and Lieutenant Starnes, of the Prince of Wales rifles, were examined. All the evidence adduced was that plenty of men had been enlisted, but that none had left Canada, as definite orders had not been received—Some money had been forwarded, no one knows how much. A Cuban agent who has been in town two weeks, has left, but the officers under arrest had no dealings with him. There is much excitement in town in consequence of the arrest of two such prominent men, and the people are asking if the Papal Zouaves were sent out of the country with the full approval of the authorities, why these men cannot leave. The members of the Cuban Junta, who have been staying at the Clifton House, Niagara Falls, left for Montreal with five other Cubans, Friday evening. They have chartered a fast steamer at Montreal to convey men and ammunition to some point on the Cuban coast. The volunteers are ordered to Sorel, a small French village 40 miles below Montreal, where they will embark if not interfered with by the Canadian authorities.

THE LATEST STREET-CAR TRAGEDY.—The facts in the case of the 2d avenue car casualty, in New York on Sunday, the 30th ult, by which John Delatour was mortally and Thomas Owens seriously injured, are still controverted. Officer George Little, of the 17th precinct, called at the Coroner's office on Friday and made a statement in relation to the affair in which he set forth that immediately after the occurrence he ran to the car B side which the injured men were lying. He arrested Patrick Flood and assisted in bringing the wounded men to the station. Delatour told him that the driver had been wrangling with some drunken men on the platform of the car, and not desiring to take any part in the disturbance he (Delatour) jumped off, and in doing so stumbled and fell on the pavement with one limb on the track. Over this limb the car wheels passed, causing the injuries which resulted in his death.

The driver claimed to have been thrown from the platform, and complained of a severe injury to his back. His clothes were soiled and torn. Neither Delatour nor Owens complained in his hearing that Flood had thrown them from the car. Flood was taken before a magistrate and, released on bail. A man named Daniel Lee stated to officer Little that one of the ruffians struck the driver, when he (Lee) jumped off and saw no more of the occurrence. Patrick Flood, who was the driver of the car, stated to the coroner, Friday, that he had been thrown from the platform by some one unknown to him, and does not know how Delatour and Owens received their injuries. The investigation is being continued.

### POLITICAL AND PERSONAL.

The President has appointed Matthew McDougall U S Consul at Dundee, Scotland.

Baron Von Ostensachen, Russian Consul General, sailed in the Donau for Bremen Saturday.

The Marquis of Lorne and the Princess Louise are expected at Niagara Falls in October.

Commissioner Pleasonton still holds his place, but it is agreed on all hands that he will have to yield it before many days.

The New York Central Republican General Committee adjourned Friday night, without transacting any business, after passing resolutions of sympathy for Hon Wm Orton in view of his dangerous illness.

The German citizens of the Tenth Assembly District of New York, met Friday evening for the purpose of forming a political organization with the view of nominating capable and honest persons to the legislature, and for other offices. Similar organizations are to be formed in every ward in the city.

Col W J Hunt, Major Freeman Seymour, Capt H A Dupont of the 5th Artillery, Lieut Col. T. T, S Hadley, Major Silas Casper, T G Boyler of the Ordinance Dep't, and Maj L A Gilmore, Engineers have been designated as a Board to meet at Battery Hudson on Staten Island, to test King's repressing gun carriage.

EX-REBEL SOLDIERS IN FEDERAL OFFICES. Under the title, "About Face," the Washington Chronicle in announcing the appointment of a rebel soldier in the Postoffice Department, has the following in regard to the system of examination now pursued in the department:

In this case a Confederate soldier, boasting of his service, was, we are credibly informed, one of a number who passed examination equally well, and that three of the number were Union soldiers. The rebel soldier was chosen over all for the vacant clerkship. This case is one of several we have heard of, and we are assured that it is one of many.

We are forced to believe that there is a set of men in the department who uniformly work against disabled soldiers, and against all active Republicans. We believe that between a Confederate and a wounded Union soldier, who pass equally good examination, the chances are, in some instances, three to one in favor of the Confederate.

We were in favor of the civil service reform, but when we see the results of some of the examinations and the men appointed, we are left to call first for a reform of the system of examinations and in some of the bureaus of the men who conduct them.

THE NEW IDRIA COMPANY.—Information is now at hand to show that the members of the New Idria Mining Company are for the most part foreigners. The knowledge of this fact is said not to be new, but to have been thought of no importance, because the department had never in its practice considered it so. If the statement be true, the company has no chance to assert any claim before the department or Congress since the intention and language of the law excluding unnaturalized foreigners from the public lands is clear and explicit.

THE NATHAN MURDERER.—Pinkerton, the detective, denies the story of having traced the Nathan murderer to Scotland. It is said that Forrester's actual hiding place and assumed name are unknown to his wife, and that the only information she receives from him is through a third person. Only three thieves in the United States know where he is, and the detective knows who they are. They are as true as steel, and no money, threats or promises could persuade them to divulge Forrester's whereabouts. There is no doubt to the minds of the detectives, however, that he is in New York city.

JULES FAVRE'S SUCCESSOR.—M Charles Francis Marie de Remusat, the successor of Jules Favre as French Minister of foreign affairs, is seventy four years of age. His father was chamberlain to the great Napoleon, and his mother, who was a writer of some note, was an intimate friend of Josephine. M. Remusat is a lawyer by profession, but his life has been devoted to politics and literature. He has been a member of two cabinets formed by M Thiers, and has suffered exile from Louis Napoleon. He is a fine scholar and orator, and will add strength to the Thiers ministry.

Judge Wylie, of Washington, D C, on Saturday issued an injunction restraining the district government from negotiating bonds under the four million improvement act. An appeal from the decision will be made to the Supreme Court of the District.

DUREN'S

# LIVERY STABLE.

The undersigned, having retired from the Stage and Livery business at Dexter, has resumed the Livery business among his old customers and acquaintances at Bangor. With the exception of the hack and coach business,

The entire Stock and Stand of Henry F. McLaughlin, on Central Bridge has been purchased by the undersigned. To the equipments already belonging to this well known and popular establishment has been added an extensive assortment and variety of teams.

It will be the endeavor of the proprietor to accommodate the public taste in every variety and extent, and at reasonable prices, and by his undivided attention to the business, to make the old McLaughlin Stand unsurpassed by any other livery establishment in the State of Maine.

The very best of experienced and courteous attendants will be employed.

Particular care and attention will be given to the boarding of horses.

At the same office and stand Mr HENRY F McLAUGHLIN will continue all sorts of business in Coaches, Hacks and Cabs as heretofore.

### 75,000 Acres

OF GOOD

### Timber Land

For Sale at a Low Rate,

Situated on Moose River, in the town of Greig, Lewis County New York.

Said timber consisting of White Hemlock Spruce, Pine and Hardwood. The subscribers own two large tanneries located on the aforesaid tract which will consume the hemlock bark, thus enabling the land and timber to be purchased at a comparatively cheap rate. The timber is excellent in quality in all particulars. The aforesaid tract of land is easy of access, being only from six to fifteen miles from both the Black River R. R. and Black River Canal, which lead direct to the Albany Market. The land is comparatively level, well watered and good for farming purposes. Moose River, which extends through the tract, is a large stream and empties into Black River, where the aforesaid Canal leads into Black River. At this point or junction of the rivers, is a fall of sixty (60) feet, over which the waters of both rivers flow, thus forming an unlimited water power (we might say right in the canal and at the Depot) to which Moose River will carry the immense amount of timber from the aforesaid lands.

Any parties desiring to manufacture lumber will do well to give this [illegible] attention. The land and timber can be purchased at a cheap rate or the timber alone permitted.

### FRENCH FIRE-PROOF LAMP CHIMNEYS,

These chimneys, which are now for the first time offered to the public possess all the essentials of a heat-resisting Chimney. They are well made of a superior quality of glass, each one finished smoothly at the bottom, and being carefully annealed or tempered, will not break from the most intense heat of a lamp flame.
A trial of their merits will convince the consumer that although costing a trifle more than the ordinary class of Chimneys in use they will prove a source of much economy in the use of Kerosene, a saving of untold trouble and annoyance, and a preventative of many accidents hitherto resulting from the breakage of Chimneys upon turning Lamps.

Supplemental Convention between the United States and Great Britain concerning the Renunciation of Naturalization in certain Cases. Signed February 23, 1871 Ratified March 24 1871 Ratifications exchanged May 4 1871 Proclaimed May 5 1871

By the President of the United States of America

A PROCLAMATION

Whereas a convention supplemental to the convention of May 13 1870 between the United States of America and Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, concerning naturalization, was concluded and signed at Washington by their respective plenipotentiaries on the twenty third day of February 1871, which supplemental convention is, word for word as follows:

Whereas by the second article of the convention between the United States of America and Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, for regulating the citizenship of citizens and subjects of the contracting parties who have emigrated, or may emigrate, from the dominions of the one to those of the other party, signed at London on the 13th of May 1870, it was stipulated that the manner in which the renunciation by such citizens and subjects of their naturalization and the resumption of their native allegiance may be made and publicly declared, should be agreed upon by the Governments of the respective countries, the President of the United States of America and Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, for the purpose of effecting such agreement, have resolved to conclude a supplemental convention, and have named as their plenipotentiaries that is to say the President of the United States of America, Hamilton Fish, Secretary of State, and Her Majesty the Queen of the United Kingdom of Great Britain and Ireland Sir Edward Thornton, Knight Commander of the most honorable Order of the Bath and Her envoy extraordinary and minister plenipotentiary to the United States of America who have agreed as follows:

ARTICLE I

Any person being originally a citizen of the United States, who had, previously to May 13th 1870 been naturalized as a British subject may at any time before August 10th 1872, and any British subject who, at the date first aforesaid had been naturalized as a citizen within the United States may at any time before May 12th 1872, publicly declare his renunciation of such naturalization by subscribing an instrument in writing substantially in the form hereunto appended and designated as Annex A.

Such renunciation by an original citizen of the United States of British nationality shall, within the territories and jurisdiction of the United States be made in duplicate, in the presence of any court authorized by law for the time being to admit aliens to naturalization, or before the clerk or prothonotary of any such court; if the declarant be beyond the territories of the United States, it shall be made in duplicate, before any diplomatic or consular officer of the United States. One of such duplicates shall remain of record in the custody of the court or officer in whose presence it was made, the other shall be without delay transmitted to the Department of State.

Such renunciation if declared by an original British subject of his acquired nationality as a citizen of the United States, shall if the declarant be in the United Kingdom of Great Britain and Ireland be made in duplicate in the presence of a justice of the peace, if elsewhere in Her Britannic Majesty's dominions in triplicate in the presence of any judge of civil or criminal jurisdiction, of any justice of the peace, or of any other officer for the time being authorized by law, in the place in which the declarant is, to administer an oath for any judicial or other legal purpose; if out of Her Majesty's dominions in triplicate in the presence of any officer in the diplomatic or consular service of Her Majesty.

ARTICLE II

The contracting parties hereby engage to communicate to each to the other from time to time lists of the persons who within their respective dominions and territories, or before their diplomatic and consular officers, have declared their renunciation of naturalization, with the dates and places of making such declarations and such information as to the abodes of the declarants, and the times and places of their naturalization, as they may have furnished.

ARTICLE III

The present convention shall be ratified by the President of the United States, by and with the advice and consent of the Senate thereof and by Her Britannic Majesty, and the ratifications shall be exchanged at Washington as soon as may be convenient.

In witness whereof the respective plenipotentiaries have signed the same, and have affixed thereto their respective seals.

Done at Washington, the twenty third day of February in the year of our Lord one thousand eight hundred and seventy one

And whereas the said supplemental convention has been duly ratified on both parts, and the respective ratifications of the same were exchanged in this city on the fourth day of May 1871 by Hamilton Fish Secretary of State of the United States and Sir Edward Thornton, K C B, Her Britannic Majesty's Envoy Extraordinary and Minister Plenipotentiary accredited to this Government, on the part of their respective Government

Now, therefore, be it known that I Ulysses S Grant, President of the United States of America, have caused the said supplemental convention to be made public, to the end that the same and every clause and article thereof may be observed and fulfilled with good faith by the United States and the citizens thereof

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed

Done at the city of Washington this fifth day of May, in the year of our Lord one thousand eight hundred and seventy one, and of the Independence of the United States of America the ninety fifth

[SEAL] U S GRANT

By the President
HAMILTON FISH,
Secretary of State.

### AMERICAN AND FOREIGN PATENTS

### R. H. EDDY,

### SOLICITOR OF PATENTS,

For Inventions Trade Marks Designs,

No 76 State Street opposite Kilby Street Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments and all papers for Patents executed on reasonable terms with dispatch. Researches made to determine the validity and utility of Patents of inventions and legal and other advice rendered on all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there, are here saved inventors.

TESTIMONIALS

I regard Mr Eddy as one of the most capable and successful practitioners with whom I have had official intercourse.

CHARLES MASON Commissioner of Patents

I have no hesitation in assuring inventors that they cannot employ a man more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office

EDMUND BURKE,
Late Commissioner of Patents

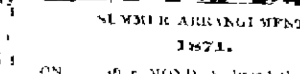

Mr R H Eddy has made for me THIRTEEN applications, [illegible] [illegible] and unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases and at very reasonable charges.
